The background is a complex, abstract composition of overlapping, irregular geometric shapes. The color palette is dominated by deep purples, magentas, and pinks, with accents of metallic gold and dark, almost black, tones. The shapes resemble facets of a crystal or shards of glass, creating a sense of depth and texture. The lighting appears to come from behind, giving the shapes a glowing, ethereal quality.

Nature's Beauty Shines Through

Concetto® surfaces are handmade from individually cut and bound semi-precious stones. The vividly coloured semi precious stones are transformed in a process which captures and enhances their innate brilliance. The result - luxury surfaces which will give your interiors the wow factor you're after. For even greater impact, some of the designs have a natural translucency which can be backlit to create a truly inspirational atmosphere.

Concetto® surfaces are heat and scratch resistant, easy to clean and never require sealing. The Concetto® nominal slab dimension is 3020mm x 1415mm x 25mm.

Superb Quality

Every Concetto® slab is a unique creation. Our quality control is second to none as we check each slab individually before declaring it flawless.

We are also committed to the highest safety and eco standards, and take great pride in becoming the first quartz manufacturer to achieve the ISO 14001 international standard for environmental management and performance. All our products meet the stringent American Greenguard standards – and we are proud to have NSF (National Sanitation Foundation) accreditation which means our surfaces are safe enough for use in labs, healthcare facilities and food preparation environments.

To guarantee your complete peace of mind, rest assured that all Concetto® luxury surfaces come with a comprehensive 10 Year Limited Warranty.
