Depth: 480mm

Fits cabinets from: 400mm
Liner bins: 2 x 20 litre

BENCH TOP BIN

No need to open a door or to bend down.

Cooking waste disappears from where it is created – the bench top, directly into the bin. The unobtrusive stainless steel lid sits flush within the bench top and the stainless steel mounting ring can be recessed into the bench top or surface mounted onto the top. A soft rubber insert within the mounting ring is shaped in such a way that all waste can be swept directly from the bench top into the bin. Ideal to fill wasted space in corner units.

BENCH TOP BIN

■ Code – WBBT27

Cut out diameter: 285mm

Height of bucket: 380mm

Overall diameter: 310mm

Cabinet height required: 400mm

ECONOMY BIN

Two way waste separation. High quality stainless steel frame. **White PVC only**

36 LITRE - ECONOMY BIN

■ Code – WBW3600

■ **Bin Dimensions**

Height: 380mm

Width: 340mm

Depth: 510mm

Liner bins: 2 x 18litre
Fits cabinets from: 400mm

SWING OUT BINS

Round fitted waste bin with superior cam lid and anti-bloc cam follower. The long life nylon cam reliably opens and closes the lid when the bin is pulled out of the cabinet by opening the door. Available in both stainless steel and white.

PULL BOY BINS

The Pull Boy bin uses the Blum Tandembox as the structural component of the bin. A frame, which is securely attached to the drawer, supports the liner bins. The Pull Boy bin is available in either charcoal coloured plastic or stainless steel and comes in either 2-way or 4-way waste separation. A lid, which is fixed, seals the bin when closed and acts as storage shelf in the cabinet.
